IT SECURITY SYSTEMS

## Privacy Policy

We collect and use your personal data exclusively within the provisions of the data protection laws of the European Union. In the following, we inform you about the nature, scope, and purposes of collecting and using personal data. You can access this information at any time on our website. Data transmission and logging for system-internal and statistical purposes Your internet browser automatically transmits data to our web server for technical reasons when you access our website. This includes, among other things, the date and time of access, the URL of the referring website, the accessed file, the amount of data sent, browser type and version, operating system, and your IP address. This data is stored separately from other data that you enter as part of using our services. We cannot attribute this data to a specific person. This data is evaluated for statistical purposes and deleted afterward.

## Inventory Data

If a contractual relationship is to be established, contentually designed, or changed between you and us, we collect and use personal data from you to the extent necessary for these purposes. On the order of the responsible authorities, we may, in individual cases, provide information about this data (inventory data) insofar as this is necessary for the purposes of criminal prosecution, hazard prevention, fulfilling the legal tasks of the constitutional protection authorities or the Military Counterintelligence Service, or enforcing intellectual property rights.

## Usage Data

We collect and use personal data from you to the extent necessary to enable or bill for the use of our internet offering (usage data). This includes, in particular, features for your identification and information about the start and end as well as the scope of use of our offering. For advertising, market research, and the needs-based design of our internet offering, we may create usage profiles using pseudonyms. You have the right to object to this use of your data. We are not allowed to merge the usage profiles with data about the bearer of the pseudonym. On the order of the responsible authorities, we may, in individual cases, provide information about this data (inventory data) insofar as this is necessary for the purposes of criminal prosecution, hazard prevention, fulfilling the legal tasks of the constitutional protection authorities or the Military Counterintelligence Service, or enforcing intellectual property rights.

## Cookies

To expand the functionality of our internet offering and make it more convenient for you to use, we use so-called "cookies." With the help of these "cookies," data can be stored on your computer when you call up our website. You have the option of preventing
